

LARGE ITEM CLEAN-UP DAY

Tuesday - July 7, 2009

During this clean-up day, the Summer Village of Gull Lake will provide special refuse pickup for household and yard refuse that would **not** ordinarily be placed in the garbage bins.

All property owners are requested to set out items for disposal no later than 7:00 pm on Tuesday, July 7. Items left after this period may not be collected, and disposal will remain the responsibility of the property owner.

Please place all items for disposal at the edge of your property, ensuring that pedestrian and vehicle traffic is not blocked.

Please sort into piles of wood, metal and rubble. All items must be neatly tied, bundled or bagged.

The following land fill disposal fees apply to large appliances:
\$25.00 for fridges & freezers (cooling apparatus)
\$5.00 for other appliances

Please note that we are not accepting toxic waste - save your paint and chemicals for the Fire Department's toxic waste round-up day.
