

Electrical Permit Requirements

Applications

In order to issue an electrical permit, the applicant must submit:

- Completed permit application
- Method of payment

Eligibility

- For a single-family dwelling, the applicant may be the owner and occupant of the property or may be a contractor who holds a Master Electrician Certificate. Service must be 100 amps or less for a home-owner permit.

Typical Site Inspection Stages

- Rough-in Inspection: Prior to covering
- Final Inspection: Project is complete

Please provide 48 hours notice to arrange for the necessary inspections. For inspections contact:
