

Private Sewage Disposal Permit Requirements

Applications

In order to issue a private sewage disposal permit, the applicant must submit:

- Completed permit application
- Method of payment
- Site plan
- Percolation tests/Soil classification
- System design
- Expected volume of sewage per day
- Depth to the water table if less than 2.4m from ground surface

Eligibility

- The applicant may be the owner and occupant of the property or may be a Certified Private Sewage Installer.

Site Inspection Stage

- Rough-in Inspection: During installation

Please provide 48 hours notice to arrange for the necessary inspections. For inspections contact:
